

ABOUT

Founded in 1995, Take Stock in Children was founded to give high-potential, low-income students the resources they needed to graduate from high school, go to college, and set the course for their careers - a way out of poverty through education. Take Stock in College has grown out of its success.

A main focus of the program is providing support through peer mentorship and the connection to college and university services to each scholarship student so they can achieve individual success.

Today the program serves all 67 counties in Florida, has given over \$230 million in scholarships and supported over 34,000 students

Mentoring on Scale, Guiding to Success

CHALLENGES

- Finding an easy, scalable way to help scholarship students to prepare for college
- Offering expert advice and resources to help college students to prepare for their careers
- Creating a sense of community for its 34,000 alumni

THE GRADUWAY SOLUTION

By Jillian Hasner, President and CEO, Take Stock in Children

“Graduway provided an ideal solution for both the Take Stock in Children (high school students) and Take Stock in College (university students) elements of the organization.

The **attractive, easy-to-use** and **interactive** platform provides the perfect environment that we were trying to create for its students and alumni to be able to network with one another at scale - without the staff having to act as intermediaries.

The most essential element for us was the **peer mentoring** capabilities and the ability to use their connected community for Take Stock Connect users to give and receive relevant college, career, and other professional advice via the mentoring hub. Graduway’s **‘willing to help’** settings provides this, **allowing the students to connect directly, when they need!**

With Graduway, Take Stock Connect strives to be a “Leaders for Life” environment -a place where students and alumni go to help each other, lift each other up, offer success stories and a pathway for success to each other while offering **a network of internships, jobs, and leadership opportunities.**”

We support a network each year of over 15,000 students. With Graduway we can now offer a sense of community where students and alumni have a place to go to support each other for success. Eventually we hope to have a network of 34,000 alumni and growing each year. A real home for the entire Take Stock family.
